

Dear Ginger,

I've recently found out that my H.I.U. (Heat Interface Unit) meter takes readings every 15 minutes which you have access to.

Could you kindly send me the RAW DATA, unedited, as-is, exported from the metering system for the following periods:

FROM: **MOVE IN DATE** TO: **TODAYS DATE**

I am happy to receive these in CSV format. **Please see to it that these are sent to me as soon as possible. If this spills over 6 years, please provide the prior 6 years up to and including the TO: date above.**

Kind Regards,

Whoever You Are

All you need to do is change the blue bits above to the date you moved in (or a date around a year or two in the past) and the TO DATE, set it as the date you send the email off.

You will get an email back eventually which will have a file attached which looks like this:

```
2021-09-08T05:45:00.000Z,6183000,0,26.2,0,26,355.14
2021-09-08T06:00:00.000Z,6183000,0,26,0,25.7,355.14
2021-09-08T06:15:00.000Z,6183000,0,26,0,25.7,355.14
2021-09-08T06:30:00.000Z,6183000,0,25.9,0,25.7,355.14
```

That's the data I need to nail them. Send their response to:
